In 2013 in her speech at the World Economic Forum in Davos, Christine Lagarde underpinned the importance of equal distribution by saying that 'Excessive inequality is corrosive to growth; it is corrosive to society. I believe that the economics profession and the policy community have downplayed inequality for too long. Now all of us - including the IMF - have a better understanding that a more equal distribution of income allows for more economic stability, more sustained economic growth, and healthier societies with stronger bonds of cohesion and trust.' 28 pp. Englisch.
