

Geology and Mineral Deposits of Barstow Quadrangle, San Bernardino County, California: And Thermal Properties of Ceramic Materials from Barstow Quadrangle, California (Classic Reprint) (Paperback)

By Oliver E Bowen

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Geology and Mineral Deposits of Barstow Quadrangle, San Bernardino County, California: And Thermal Properties of Ceramic Materials From Barstow Quadrangle, California Sir: I have the honor to transmit herewith Bulletin 165, Geology and Mineral Deposits of Barstow Quadrangle, San Bernardino County, California, prepared under the direction of Olaf P. Jenkins, Chief, Division of Mines, Department of Natural Resources. The report is accompanied by detailed colored geologic and economic mineral maps, charts and cross sections, and many other illustrations. The area covered by the report lies in the Mojave Desert and embraces 976 square miles, a 30-minute quadrangle. The mineral deposits described consist of limestone, dolomite, ganister (quartzite), barite, magnesite, pyrophyllite, mica-quartz fillers and ornamental stone such as marble and granite, which are the chief non-metallic minerals of the area; gold, silver, iron, copper, lead, zinc and tungsten, the metallic minerals. The underground water supplies of the area are also discussed as they are related to the geology. The report represents one of the basic geologic map projects of the Division of Mines. It has been...

Reviews

A really awesome publication with perfect and lucid reasons. I was able to comprehended every thing using this published e pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.
