The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).

Rudolf Steiner Press. Paperback. Book Condition: new. BRAND NEW, Understanding Healing: Meditative Reflections on Deepening Medicine through Spiritual Science (1st New edition), Rudolf Steiner, Christian von Arnim, Rudolf Steiner's third great lecture course to physicians has a completely different character to his previous presentations. Delivered in response to a group of young doctors - who approached Steiner with the specific request for a course that would be 'quite intimate', but should not contain anything ' - which appealed only to knowledge and the intellect' - it offers unique, groundbreaking insights into the practice and art of healing. Steiner speaks about the influence of cosmic and earthly forces - the periphery and centre - on the human being. Proper understanding of these processes enables the physician to comprehend the actions of plants and minerals used in anthroposophic medicines, and thus to prescribe appropriate and individually specific remedies. Steiner paints a picture of the human being as a complex confluence of the forces of heredity, forces from the cosmos, and an individual's unique spiritual nature. The physician has to understand these relationships in order to be able to help effectively when they are out of balance. Steiner stresses the importance of personal development for physicians, and offers plentiful instructions for a meditative practice intrinsic to their work. Among a wealth of other topics, Steiner addresses inflammation and excessive growth; the nature of scarlet fever and measles; the importance of a child's food and breast milk; the functions of the liver, heart, head and skeleton; the incarnation process; karma as a guide for the physician; morality as a force streaming in from the cosmos; the cosmic trinity of Saturn, Sun and Moon in the healthy and sick human being; and the involvement of the heart in thinking. Included here are Rudolf Steiner's answers...
