Ann Connor Brimer Award for Childrens Literature Nominee, 2008 CCBCs Best Books for Kids and Teens, 2008 A compelling adventure story! In the early 20th century, an English doctor exposed the desperation of the people of the outports of Newfoundland and Labrador. The doctors name - Wilfred Grenfell - soon became synonymous with one of the greatest missions to the poverty-stricken in North America. The Grenfell mission was the early headquarters for the doctors work. Thousands of fishermen and their families had no access to medical care, despite the harsh conditions of the fishery and life along the north Atlantic shores. This book dramatizes this time and place and the Grenfell cause, through the story of a feisty teenager, Katie Andrew, whose family fishes the Labrador waters each summer. Its the spring of 1913, and Katie and her family join her father in the tiny settlement of Foxs Cove. The fishing life is tough and demanding, and as autumn draws near, Katies father is lost at sea. Katies mother stubbornly refuses to leave the outport, and waits for him to return even when all hope is lost. The tragedy is compounded when Katies entire family falls ill and her mother dies. Katie awakens after her illness in the orphanage run by the Grenfell mission. Shes relieved that one of her sisters has been saved with her, but is devastated by the disappearance of her youngest sister, who has been adopted by a well-to-do photographer and his family. The loss of her sister marks the beginning of Katies journey and the trigger for a compelling adventure story. Its a story that takes the girl through a series of events that are as vital to her search...
