

Book 1: Diving in - IOS App Development for Non-Programmers Series: The Series on How to Create iPhone iPad Apps

Filesize: 4.71 MB

Reviews

Completely essential read publication. It is really basic but excitement in the fifty percent of the book. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about in the event you ask me).

(Lexie Paucek PhD)

BOOK 1: DIVING IN - IOS APP DEVELOPMENT FOR NON-PROGRAMMERS SERIES: THE SERIES ON HOW TO CREATE IPHONE IPAD APPS

Oak Leaf Enterprises, Inc. Paperback. Book Condition: New. Paperback. 138 pages. Dimensions: 9.8in. x 6.9in. x 0.6in. Updated for iOS 7 and Xcode 5! Reviews: Dedicated to Steve Jobs, this self published book highlights much of what Jobs himself strove for - clear, crisp design, intuitive interface and user experience coupled with high quality, clear content. - Digital Book World, 2013 Most of the books I scanned, even the Dummies series, assumed a basic knowledge of computer programming even for iOS beginners. What I like about Kevin's writing is that he doesn't make any assumptions he just takes you there step by step. - Lorraine Akemann - Moms With Apps Unleash the App Developer Within! This first book in the series from Kevin McNeish, award-winning App Developer, highly acclaimed iOS trainer and conference speaker, is specifically designed to teach non-programmers how to create Apps for the iPhone and iPad. Many books designed for the beginning Apple developer assume way too much. In contrast, this book series assumes you know nothing about programming. This first book is your easy in and builds confidence that you can write Apps for the iPhone and iPad. Each chapter and exercise has been reviewed by people like you--with little or no experience in how to make an App. Many sections of the book were rewritten, diagrams were added, and examples improved until all beta readers completely understood each key concept. Up to Date With the Latest Apple Technologies The information in this book is applicable to the latest iOS technologies including the iOS 7 and XCode 5. You will learn about storyboards, scenes, navigation, displaying lists of data, animating transitions between scenes, using maps, and much more. Includes Step-by-Step Instructional Videos! There are seven step-by-step instructional videos in which you watch the author create each part..
