

Architectural Woodwork: Details for Construction

By Stephen P. Major

Wiley. Paperback. Book Condition: New. Paperback. 240 pages. Dimensions: 10.8in. x 8.4in. x 0.5in. Architectural Woodwork Details for Construction Stephen P. Major If you're spending too much time chasing down information on architectural woodwork and its many synthetic counterparts--and still not finding all the answers you need to do the job--you can stop looking now. Architectural Woodwork: Details for Construction is the one-stop resource you've been looking for. Written by a builder for builders, architects, and designers, it's the first book exclusively devoted to the selection, design, detailing, and installation of both interior and exterior architectural woodwork. What's more, it also covers synthetic wood substitutes such as aluminum millwork, vinyl siding, and styrene reproduction mouldings, and analyzes how each of these compares to traditional wood products. Whether you're designing windows or walls, doors or decks, floors or fireplace trim, you'll find everything you need here to translate your design ideas into real woodwork. Just flip to the chapter on the type of woodwork you want and you'll find: an explanation of the woodwork's practical function characteristics of construction materials, and why some are better for the job an illustrated listing of choices available to you commonly encountered problems design considerations and...
