## FM 23-95 75-MM Tank Gun M2 (Mounted in Lee Medium Tank M3) Field Manual (Paperback)

By War Department

Periscope Film LLC, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The US 75-mm tank gun M2 was the standard American tank gun of the Second World War. The M2 originated from the famous French Canon de 75 modele 1897 field gun of World War I fame, which was also adopted by the United States and used well into World War II as the 75-mm M1897 field gun. The primary round fired by the M2 was the M48 High Explosive. This round traveled at 625m/s and contained 1.5 pounds of TNT filling. The M48 was available in two versions, standard or supercharge. Supercharge increased the propellant charge for greater muzzle velocity. Other important rounds fired by the 75-mm tank guns were the T30 Canister shot for use against troops in the open at short range, and two different types of armor-piercing rounds. The M2 was primarily mounted in the Lee Medium Tank M3. In Britain the tank was called by two names based on the turret configuration. Tanks employing US pattern turrets were called the General Lee, named after Confederate General Robert E. Lee. Variants using British...

### Reviews

*Without doubt, this is actually the greatest work by any writer. It is actually written in simple terms instead of confusing. I found out this ebook from my i and dad recommended this pdf to understand.*

-- **Kristy Dicki**

*It becomes an amazing pdf that I actually have ever go through. This is for those who state that there had not been a worth reading through. You will like how the author create this pdf.*
